## **Introduction**

With a view to safeguarding public safety, the Chief Executive announced in the “2017 Policy Address” to earmark HK\$3 billion and partnered with the Urban Renewal Authority (“**URA**”) for implementation of the “Operation Building Bright 2.0” (“**OBB 2.0**”), aims at providing technical and financial support for owner-occupiers of aged private residential or composite buildings with a relatively low average annual rateable value, to act in compliance with the requirements under the Mandatory Building Inspection Scheme (“**MBIS**”). OBB 2.0 is now open for application.

## **Target Buildings**

There are two categories of target buildings under OBB 2.0:

### **Category 1**

Category 1 covers buildings whose owners or owners' organisations are prepared to carry out at least the prescribed inspection and repair works for the common parts of their buildings on a voluntary basis in accordance with the requirements under the MBIS;

### **Category 2**

Category 2 covers buildings which have not complied with the outstanding MBIS Statutory Notices, but the owners or owners' organisations concerned have difficulties in coordinating the prescribed inspection and repair works for commons parts of the buildings and are selected by Buildings Department (“**BD**”) based on risk assessment. For Category 2 buildings, BD will exercise its statutory power to arrange consultants and contractors to carry out the necessary inspection and works on behalf of the owners.

## 1. Eligibility Criteria

### 1.1 Owner-occupiers

- 1.1.1 **The Applicant must be** a holder of valid Hong Kong identity card;
- 1.1.2 The Applicant must be the owner of a residential unit in a Category 1 or Category 2 building under OBB 2.0<sup>Note 1</sup> and the unit is solely for the purpose of self-occupation by him/her or his/her immediate family members<sup>Note 2</sup>; and
- Note 1: For a building owned by a Civil Servants' Co-operative Building Society, members of the society may also apply.
- Note 2: "Immediate family members" means spouse (i.e. lawful opposite-sex husband or wife), parents, children, stepchildren, dependent siblings, paternal or maternal grandparents, paternal or maternal grandchildren, stepparents, and the parents or stepparents of spouse.
- 1.1.3 The target building has been granted the Approval-in-Principle Letter for OBB 2.0 as a Category 1 building, or has been notified of being selected as a Category 2 building; and
- 1.1.4 The Applicant must not at the same time be a recipient of any public housing benefits, subsidies or allowances (e.g. holding public housing tenancy or public housing ownership with alienation restrictions (except building owned by Civil Servants' Co-operative Building Society)).
- 1.1.5 The Steering Committee of OBB 2.0 shall review the special particular circumstances of any case to determine the eligibility and subsidy level.
- 1.1.6 If the Applicant owned more than one eligible unit in applying for OBB 2.0, he/she may only apply for the subsidy with his/her occupied unit, i.e. the number of unit limits at one. Where an Applicant has received subsidy under OBB 2.0 for a certain unit, he/she shall not be entitled to any subsidy under OBB 2.0 again if he/she subsequently moves to another eligible building under Category 1 or Category 2 of OBB 2.0.

### 1.2 Elderly Owner-Occupiers

- 1.2.1 **The Applicant must meet** the requirements as stipulated in Paragraph 1.1 of this Application Notes; and
- 1.2.2 The Applicant must be **aged 60** or above (as indicated on Hong Kong identity card) on or before the application deadline as specified in Paragraph 6.7 of this Application Notes.

## 2. Definition of Residential Unit

"Residential Unit" means an independent unit as registered in the Land Registry records or shown on the approved building plans, and the unit is used for residential purpose. If the Applicant lives in a unit in a composite building the use of which has been changed from non-residential to residential purpose, he/she shall make a statutory declaration in accordance with the Oaths and Declarations Ordinance declaring that the unit is entirely for residential use (excluding shophouses and any forms of commercial use)<sup>Note 3</sup>.

Note 3: Such statutory declaration shall only be used for the purpose of the application for OBB 2.0 subsidy and the owners or occupiers shall not be regarded the same as any formal application for change of uses of the unit concerned to the relevant government departments. The approved uses of such unit as indicated on the relevant Occupation Permit shall not be changed because of such statutory declaration.

### 3. Target Beneficiaries and Level of Subsidy

3.1 The owner-occupiers of residential units in those buildings approved for participating in OBB 2.0 may apply for the following subsidies:

- (a) For prescribed inspection and repair works for common parts of the building (which meet the requirements set out in Paragraph 4.1 of “AN-OBB2.0(Bldg)”)

Owner-occupation unit	Level of Subsidy
Owner-occupiers	80% of the cost of the relevant works, subject to a cap of HK\$40,000 per unit
Elderly owner-occupiers [See Paragraph 1.2]	100% of the cost of the relevant works, subject to a cap of HK\$50,000 per unit

- (b) For prescribed inspection and repair works for private projecting structures (which meet the requirements set out in Paragraph 4.2 of “AN-OBB2.0(Bldg)”)

For buildings approved to carry out prescribed inspection and repair works for common parts of the buildings under OBB 2.0, they may apply for the following subsidy:

Owner-occupation unit	Level of Subsidy
All owner-occupiers	50% of the cost of the relevant works, subject to a cap of HK\$6,000 per unit

Eligible owner-occupiers **should fill in the “Integrated Building Rehabilitation Assistance Scheme (IBRAS) Application Form for Owners of Individual Units” (“Application Form”)** by themselves and submit the Application Form to URA within the application period specified in Paragraph 6.7 of this Application Notes.

- 3.2 For the avoidance of doubt, an eligible owner-occupier may only apply for the subsidy for inspection and repair works for private projecting structures of his/her residential unit after the approval for his/her building to participate in OBB 2.0 is granted.
- 3.3 If the unit is co-owned by elderly owner-occupier(s) and non-elderly person(s), the elderly Applicant remains eligible to apply for subsidy at 100% of the cost of the inspection and repair works for common areas of such unit, subject to a cap of HK\$50,000 per unit.

## AN-OBB2.0(00)

### 4. Other Terms

- 4.1 If the Applicant is only one of the co-owners of the unit, he/she may also apply for full subsidy for owner-occupiers/elderly owner-occupiers.
- 4.2 The Applicant shall not use the subsidies received under OBB 2.0 for any repeated items of works which have already been subsidised by “**Fire Safety Improvement Works Subsidy Scheme**”, “**Lift Modernisation Subsidy Scheme**” and “Operation Building Bright 1.0”. In case the applicant has already received subsidies under OBB 2.0 with his/her occupied unit, that unit would not be eligible for any subsidies under “**Mandatory Building Inspection Subsidy Scheme**” and “Common Area Repair Works Subsidy” offered by URA for the same works.
- 4.3 The total amount of subsidy/loan received by the Applicant under OBB 2.0, “Building Maintenance Grant Scheme for elderly owners” provided by the Hong Kong Housing Society, and the “Building Safety Loan Scheme” provided by the BD shall not exceed the actual costs paid by the Applicant for the relevant works.
- 4.4 Under no circumstances shall any unauthorised building works or structures on or in a building approved to participate in OBB 2.0 be regarded as a residential unit or be entitled to the subsidies under OBB 2.0.

### 5. Release of Subsidy

- 5.1 As regards the release of subsidy for common parts of the building, the subsidy will be released by phases (up to 4 phases) to the owners’ organisation of the building according to the progress of works for payment of the costs of inspection and repair works for common areas of the building covered by OBB 2.0. The amount of subsidy to be released by URA in each phase will be calculated according to the percentage of the completed eligible works items covered by OBB 2.0. Consultancy fee can be included in the above subsidy release application during the contracting period. The owners’ organisation shall distribute the subsidies to owner-occupiers approved to participate in OBB 2.0 in accordance with the funding allocation form provided by URA.
- 5.2 The subsidy may be revoked if the owners’ organisation of the building of the Applicant eventually fail to provide URA with the compliance letter from BD certifying that the building has completed the prescribed inspection and repair works to the requirements under MBIS.
- 5.3 If the owners’ organisation of the building renders proof to verify the Applicant has paid the cost of inspection and repair works for common areas of the building, URA may depend on the circumstances of each case to release the subsidy to the Applicant directly.
- 5.4 After completion of prescribed inspection and repair works for private projecting structures and submission of sufficient documentary proofs by individual Applicant, the full subsidy will be directly released to the Applicant by URA.
- 5.5 In general, URA will arrange for release of the subsidy within 30 days after receiving all required documents.
